FOR IMMEDIATE RELEASE FROM DAKTRONICS INC.

Daktronics, Inc. Announces First Quarter Fiscal 2012 Results

- Net sales increase 18% compared to fiscal 2011 first quarter
- Net income rises 38% compared to fiscal 2011 first quarter
- Backlog increases to \$154 million compared to \$144 million one year ago

Brookings, S.D. – August 23, 2011 - Daktronics, Inc. (Nasdaq - DAKT) today reported fiscal 2012 first quarter net sales of \$118.7 million and net income of \$3.4 million, or \$0.08 per diluted share, compared to net sales of \$100.5 million and net income of \$2.4 million, or \$0.06 per diluted share, for the first quarter of fiscal 2011. Backlog at the end of the fiscal 2012 first quarter was approximately \$154 million, compared with a backlog of approximately \$144 million a year earlier and \$131 million at the end of the fourth quarter of fiscal 2011.

Free cash flow, defined as cash provided by operations less net purchases of property and equipment, was \$8.8 million in the first quarter of fiscal 2012, compared to \$12.1 million in the first quarter of fiscal 2011. Cash and marketable securities at the end of the first quarter of fiscal 2012 were \$83.3 million.

"We began fiscal 2012 with a continuation of the trends from the second half of fiscal 2011. Our Commercial and International business units continued to increase order bookings, leading our recovery from the slowdown of the past couple of years," said Jim Morgan, president and chief executive officer. "Orders in the Commercial and International business units increased 43% and 47%, respectively, over the first quarter of fiscal 2011. Furthermore, both business units grew sequentially over the fourth quarter of fiscal 2011. The concerns over education funding impacted our Schools and Theatres business unit during the last two months of the quarter, which is the key selling season for fall sports. The competitive pressures continued in most areas of the business; however we project a slight increase in margins on large contracts booked during the first quarter of fiscal 2012."

Business Highlights

- Sales in the Commercial business unit continued to grow, led by increased orders for digital billboards and large
 contracts. Orders in the reseller portion of the Commercial business unit were up approximately 62% from the fourth
 quarter of fiscal 2011 as a result of the increase in large video display contracts, which included a large multi-million
 dollar project for a network of shopping malls. Orders in the digital billboard niche rose 36% over the fourth quarter
 of fiscal 2011.
- With the lack of activity in the National Football League this season, our Live Events business for the quarter was concentrated largely in the university market which was strong enough to have a slight increase in orders over the first quarter of fiscal 2011. The start of the fall sports season will highlight a number of new systems for college football, including, among others, the University of Kentucky, Iowa State University, University of Georgia, and the Los Angeles Coliseum.
- Orders in the International business unit, which continued to expand, included two orders of approximately \$5 million each. One order was for Dalian Arena in China, while the other was for the Westfield Stratford City project in London. During the quarter, the Cines Callao theater in Madrid, Spain showcased two new Daktronics 10 millimeter DVX high-resolution outdoor video displays for the world premiere of Harry Potter and the Deathly Hallows. The displays showed live feeds to local crowds of the red carpet event in Madrid as well as a simultaneous premiere event in London.
- Orders in the Transportation business unit were up over 37% from the fourth quarter of fiscal 2011 and included orders in excess of \$1 million each from the Florida Department of Transportation, the New Jersey Turnpike Authority, the Los Angeles Metro, the Port Authority of New York and New Jersey, and McCarran International Airport.

Outlook

Morgan added, "We were pleased to see growth in our backlog as we enter what is typically the busiest quarter of our fiscal year. We expect that net sales in the second quarter of fiscal 2012 will increase from the level of the first quarter of fiscal 2012. We continue to see strength in our Commercial and International business units driven by our billboard products and our new DVN and DVX indoor and outdoor high resolution video display technology. Our Schools and Theatres business unit is feeling the effects of the tougher economy, although we continue to see interest in video systems for high schools and anticipate that this will be an ongoing growth opportunity for this market. In our Live Events business, we were pleased to

see that the National Football League has resolved its labor issues. We expect opportunities in the NFL to come back next year, with a number of pending projects in our pipeline. For the long-term, we need to see more growth in stadium and arena investment to drive more significant growth in Live Events. The Transportation business unit has a backlog that goes out more than two quarters. Sales in our Transportation business unit for the remainder of the fiscal year will be paced largely by how customer projects progress, but we expect continued strong performance in this business unit for the foreseeable future."

"Our product development expenses for the first quarter of fiscal 2012 were higher than our past run rate due in large part to the number of new product introductions and our increased emphasis on reliability testing in conjunction with product development. We are investing more in the front end in both testing and prototyping products prior to market release to further improve our products, driving lower long-term costs and higher customer satisfaction over the life of the products. During this quarter, we invested in developing new products for architectural lighting and enhancing our line of products built on our DVN indoor technology and DVX outdoor technology and related control systems. This higher level of spending is expected to continue into the second quarter of fiscal 2012 as we complete a number of major product developments," continued Morgan.

Strategy

"Our focus continues to be on winning orders to continue to grow the top line, while continuing to reduce costs by improving our processes across the company and further reducing the manufactured costs of our products through product development initiatives and leveraging a global supply chain. We continue with initiatives to improve reliability and quality, maintain a high level of on-time delivery, and strengthen our after-sales service delivery. We will continue to focus on free cash flow, with our priorities for cash being funding operations, including developing new and improved product offerings, expanding markets for existing products, and investing in business process improvement initiatives to create shareholder value over time," concluded Morgan.

Webcast Information

The company will host a conference call and webcast to discuss its financial results today at 10:00 am (Central Time). This call will be broadcast live at http://investor.daktronics.com and available for replay shortly after the event.

About Daktronics

Daktronics has strong leadership positions in, and is the world's largest supplier of, large screen video displays, electronic scoreboards, LED text and graphics displays, and related control systems. The company excels in the control of display systems, including those that require the integration of multiple complex displays showing real-time information, graphics, animation and video. Daktronics designs, manufactures, markets and services display systems for customers around the world in four domestic business units: Live Events, Commercial, Schools and Theatres, and Transportation, and one International business unit. For more information, visit the company's World Wide Web site at: http://www.daktronics.com, e-mail the company at investor@daktronics.com, call (605) 692-0200 or toll-free (800) 843-5843 in the United States or write to the company at 201 Daktronics Dr., PO Box 5128, Brookings, S.D. 57006-5128.

Safe Harbor Statement

Cautionary Notice: In addition to statements of historical fact, this news release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and is intended to enjoy the protection of that Act. These forward-looking statements reflect the Company's expectations or beliefs concerning future events. The Company cautions that these and similar statements involve risk and uncertainties which could cause actual results to differ materially from our expectations, including, but not limited to, changes in economic and market conditions, management of growth, timing and magnitude of future contracts, fluctuations in margins, the introduction of new products and technology, the impact of adverse weather conditions and other risks noted in the company's SEC filings, including its Annual Report on Form 10-K for its 2011 fiscal year. Forward-looking statements are made in the context of information available as of the date stated. The Company undertakes no obligation to update or revise such statements to reflect new circumstances or unanticipated events as they occur.

In evaluating its business, Daktronics considers and uses free cash flow as a key measure of its operating performance. The term "free cash flow" is not defined under U.S. generally accepted accounting principles ("GAAP") and is not a measure of operating income, cash flows from operating activities or other GAAP figures and should not be considered alternatives to those computations. Free cash flow is intended to provide information that may be useful for investors and management when assessing period to period results and may not be computed the same as similarly titled measures used by other companies.
