<u>Exhibit No.</u>	<u>Description</u>
	99.1 Press Release dated November 21, 2018 issued by Registrant regarding first quarter fiscal 2019 results.

Daktronics, Inc. Announces Second Quarter Fiscal 2019 Results

Brookings, S.D. – November 21, 2018 - Daktronics, Inc. (NASDAQ - DAKT) today reported fiscal 2019 second quarter net sales of \$172.7 million, operating income of \$9.0 million, and net income of \$8.6 million, or \$0.19 per diluted share, compared to net sales of \$169.3 million, operating income of \$9.4 million, and net income of \$7.1 million, or \$0.16 per diluted share, for the second quarter of fiscal 2018. Fiscal 2019 second quarter orders were \$151.4 million, compared to \$142.3 million for the second quarter of fiscal 2018. Product order backlog at the end of the fiscal 2019 second quarter was \$150 million, compared to a backlog of \$155 million a year earlier and \$177 million at the end of the first quarter of fiscal 2019.⁽¹⁾

Net sales, operating income, net income, and earnings per share for the six months ended October 27, 2018, were \$326.9 million, \$13.1 million, \$13.2 million, and \$0.29 per diluted share, respectively. This compares to \$342.0 million, \$21.2 million, \$15.6 million, and \$0.35 per diluted share, respectively, for the same period in fiscal 2018.

Cash provided by operating activities in the first six months of fiscal 2019 was \$22.6 million, compared with cash provided by operating activities of \$9.3 million in the same period last year. Cash flow from operating activities fluctuated due to changes in net operating assets and liabilities offset by decrease in net income. Free cash flow, defined as cash provided from or used in operating activities less net investment in property and equipment, was a positive \$12.9 million for the first six months of fiscal 2019, as compared to a positive free cash flow of \$3.6 million for the same period of fiscal 2018. Net investment in property and equipment was \$9.7 million for the first six months of fiscal 2019, as compared to \$5.7 million for the first six months of fiscal 2018. Cash, restricted cash, and marketable securities at the end of the second quarter of fiscal 2019 were \$67.3 million, which compares to \$61.5 million at the end of the second quarter of fiscal 2018 and \$64.3 million at the end of fiscal 2018.

Orders for the second quarter of fiscal 2019 increased 6.4 percent as compared to the second quarter of fiscal 2018. Orders increased in the Commercial, High School Park and Recreation, and Transportation business units, decreased in the International business unit, and remained relatively flat in the Live Events business unit.

Net sales increased by 2.0 percent in the second quarter of fiscal 2019 as compared to the second quarter of fiscal 2018. Net sales increased in the Commercial, High School Park and Recreation, Transportation, and International business units, and decreased in the Live Events business unit. The increase in the Commercial business unit was primarily due to the timing of large custom projects in the spectacular niche, increased order volumes in the on-premise niche, and an increase in the out-of-home niche shipments. Live Events sales decreased primarily due to the decrease of orders on a year to date basis.

Gross profit, as a percentage of net sales, was relatively flat at 24.8 percent for the second quarter of fiscal 2019 as compared to 25.2 percent a year earlier. Operating expenses for the second quarter of fiscal 2019 were \$33.7 million, compared to \$33.2 million for the second quarter of fiscal 2018. Operating income as a percent of sales for the quarter decreased to 5.2 percent as compared to the second quarter of fiscal 2018 operating income of 5.6 percent. In the first quarter of fiscal 2019, we recorded a tax benefit and in the second quarter we recorded a tax expense, which resulted in a zero-tax expense for year to date as our estimated effective tax rate is based on our estimate of permanent research and development tax credits which offsets the estimated tax expense for the year.

Reece Kurtenbach, chairman, president and chief executive officer stated, “The diversity of our end-markets and competitive solution portfolio enabled us to increase orders for the first half of the year. Strong market demand continued for larger sized spectacular projects, larger sports systems in high schools, after-sale service offerings, and signage for transportation infrastructure. And while the order volume was down for the first half of the year internationally, we were successful in winning transportation and global out-of-home advertising projects. Fewer large project opportunities were available in Live Events so far this year, causing orders and related sales to be down on a year to date basis. Warranty as a percent of sales for the quarter decreased to 2.5 percent as compared to the second quarter of fiscal 2018 warranty as a percent of sales of 3.9 percent. However, this improvement was offset by higher commodity costs and increases in selling expenses.

Outlook

Kurtenbach added, “As we enter into the second half of our fiscal year, we remain optimistic about our long-term outlook. Our portfolio of innovative products and technologies positioned us to capitalize on the growing market demand for digital canvases. In the short term, the current global tariff and trade environment has created cost headwinds on commodity and components used in the production of our solutions. We continue to monitor the situation and evaluate ways to minimize these impacts through vendor negotiations, alternative sources, and potential price adjustments. Our teams are focused on the continued development of industry leading solutions and global sales channels to support long-term profitable growth.”

*In evaluating its business, Daktronics considers and uses free cash flow as a key measure of its operating performance. The term free cash flow is not defined under U.S. generally accepted accounting principles ("GAAP") and is not a measure of operating income, cash flows from operating activities or other GAAP figures and should not be considered alternatives to those computations. Free cash flow is intended to provide information that may be useful for investors when assessing period to period results.
